Important:

1. Do not rasterize any part of the file!
2. Do not scale the form - it is always in 10%!
3. Place your graphics on the layer "**artwork bounds**"
4. Don't edit the artboards.
5. You can change the configuration of the tent in the following way:

a) removing unnecessary walls.
b) if you order only the walls, remove the roof
c) replacing the standard walls with variants from page 2 and "StarTent 10m custom walls form"

6. **Outline** all text artwork!
7. Find a sample tent configuration on page 3

After completing the work, delete pages 2-3 and send only page 1 !!!
